

Emerald Isle Solutions™

A complete nutritional approach to increase turf's ability to withstand stress, drought and disease

For over 30 years, Emerald Isle products have been helping golf course superintendents manage their putting greens with industry proven products that provide nutrition and assist with managing environmental stress. Emerald Isle Solutions' TrueFoliar® nutrition is more than just high-quality, foliar-absorbed nutrients. It also incorporates seaplant extract, antioxidants, fulvic acids, and amino acids. This complete nutritional approach increases the turf's ability to withstand stress, drought, and disease pressure and to produce carbohydrate reserves and root mass. Such a comprehensive approach goes beyond just "feeding" turf, and ensures turfgrass managers consistently good turf quality.

Seaplant Based Products

CPR Premix Biostimulant 4-0-1

(60% Seaplant Extract + Micronutrients + Wetting Agent)

PanaSea Plus Seaplant Extract 0-2-2

(100% Seaplant Extract + Phosphoric acid)

Fairway SeaSequential 6-0-2

(Fe EDTA + Fe Citrate + 47% Seaplant Extract)

True Foliar Fertilizers

True Foliar N 19-1-6

(Urea + Ammonium Nitrate + Fe/Mn/Zn/Cu)

True Foliar NPK Plus 10-3-16

(Potassium Phosphite + 30% Seaplant Extract)

True Foliar Si 3-0-10

(K Citrate & Carbonate + 1% Silicon + 45% Seaplant Extract)

True Foliar Mg Mn 6-0-0

(Mg Nitrate + Mn Nitrate + 30% Seaplant Extract)

Emerald Isle Solutions™

Slow Release Nitrogen Fertilizers

LebanonTurf has expanded our collection of liquid putting green products specifically designed to improve plant and soil health with each one featuring a unique combination of fertilizer, micronutrients, beneficial microbes or rhizosphere bacteria.

Fe 6% Plus is a chelated iron fertilizer with the added benefits of seaplant extract for turf stress. Provides tournament green up without increase turf growth. The seaplant extracts increases the turf's ability to withstand heat stress, tolerate drought and resist disease by producing carbohydrate reserves and root mass.

TurfVigor combines patented high impact microbial strains, and macro- and micronutrients in one formulation. This product is designed to increase turfgrass stress tolerance associated with temperature, drought, physical injury, and other environmental conditions. It maximizes nutrient uptake improving turf color and quality. For use on greens, tees, fairways, lawns, athletic fields, and when overseeding.

1-2-3 Premix Plus provides chelated micronutrients plus a blend of microbial cultures. It provides deeper root mass, greener color without rapid growth and improved turf health. The improved formula delivers faster recovery and quicker green-up from drought conditions. For use on greens, tees, sports turf, when overseeding, installing sod, turf renovation, during fertigation and for injection.

Micro Mix Chelated Liquid is a highly concentrated product with a low application rate. It contains micro nutrients including Magnesium, Sulfur, Boron, Iron, Manganese, and Zinc. It provides rapid green-up without staining. For use when transplanting and maintaining trees and shrubs, also on greens, tees, and fairways.
