

roots® BioPam™

ROOTS® BioPam™ is a combination tackifier/inoculant used for effective hydroseeding. It contains a polyacrylamide tackifier to bind together the various components of the hydromulch, improve water penetration, and slow erosion of the hydromulch. ROOTS® BioPam™ also contains ROOTS® BioPak®, a dry soluble inoculant containing beneficial rhizosphere bacteria which improve soil fertility by fixing nitrogen, solubilizing phosphorus, and degrading organic matter.

DIRECTIONS FOR USE:

Hydroseeding: ROOTS® BioPam™ is applied at varying rates depending on the area to be covered, the steepness of the slope, and the desired viscosity (thickness) of the mix. The basic application rate for flat ground is 8.5-Lbs per acre (3.5 oz per 1,000 sq. ft.). This increases with the slope, as shown in the following table. Machine loading procedures may vary. Agitate to mix thoroughly.

Application for hydroseeding

Slope	Flat	4:1	3:1	2:1	1:1
Lbs/Acre	8.5	11.5	15	20	25
oz./1,000 ft ²	3.5	4	6	7.5	9

HEALTH AND SAFETY:

Gloves recommended. Wash hands after handling. Avoid contact with eyes or broken skin. Avoid inhaling dust or mist. In case of ingestion, seek medical attention. In case of allergic reactions, treat symptoms and contact a physician. Persons with abnormal sensitivity to common bacteria should consult their physician before handling microbial products.

KEEP OUT OF REACH OF CHILDREN.

STORAGE: This product is stable in dry storage conditions up to 100°F.

TECHNICAL ASSISTANCE: For technical assistance, call 1-(717) 273-1685

WARRANTY

NOTE To the extent consistent with applicable law, Buyer assumes all responsibility for safety and performance if this product is not used according to the directions.

Net Wt: 5 Lb (2.27-kg)

Tackifier with Beneficial Bacteria for Hydromulching

- Reduces seed and mulch loss from runoff
- Introduces beneficial microbes

WARNING

Hazard Statements

May cause mild skin irritation.

Causes eye irritation.

Precautionary Statements for handling

If skin irritation occurs: wash with plenty of soap and water. Seek medical attention if irritation persists.

Avoid breathing dust or spray mist.

Wash hands thoroughly after handling.

If in eyes: rinse eyes cautiously with water for several minutes. Remove any contact lenses if easy to do, and continue rinsing.

If discomfort or irritation occurs and persists contact a physician.

Take off contaminated clothing and wash before reuse.

Dispose in accordance with all federal, state and local regulations.

Persons with severely suppressed immune systems should contact their physician before handling ordinary microbial products.

NOT A PLANT FOOD PRODUCT CONTAINS NON PLANT FOOD INGREDIENTS

Guaranteed Analysis	
SOIL AMENDING INGREDIENTS	
Rhizosphere Bacteria	43.2 Million cfu/g
9.8 Million cfu/g <i>Bacillus licheniformis</i>	
9.8 Million cfu/g <i>Bacillus megaterium</i>	
2 Million cfu/g <i>Bacillus polymyxa</i>	
9.8 Million cfu/g <i>Bacillus subtilis</i>	
9.8 Million cfu/g <i>Bacillus pumilus</i>	
2 Million cfu/g <i>Paenibacillus azotofixans</i>	
Humic acids (derived from Leonardite)	12.5%
Polyacrylamide	58.0%
MICROBIAL NUTRIENTS	22.0%
14.0% Seaweed extract (derived from <i>Ascophyllum nodosum</i>)	
5.8% Maltodextrin	
2.2% Yeast Extract	
INERT INGREDIENTS	7.5%
5.5% Non humic acid components of Leonardite extract	
2.0% Polyethylene glycol	

Expiration Date:

Not for use on Food Crops.
