STARTER FERTILIZER

18-24-12

GUARANTEED ANALYSIS

Total Nitrogen (N)..... 18%

8.7% Ammoniacal Nitrogen*

9.3% Urea Nitrogen

Available Phosphate (P_2O_5)..... 24%

Soluble Potash (K_2O)..... 12%

Derived From: Diammonium Phosphate, Urea, Polymer Coated Urea, Muriate of Potash.
*3.6 Slowly available nitrogen from polymer coated urea.

Chlorine (Cl) not more than..... 9%

This product combines the highest quality ingredients available to provide the basic elements turf needs for vigorous growth. Nitrogen is for steady, uniform feeding. This product contains an increased percentage of phosphorous and potash to promote good root and stem development.

DIRECTIONS FOR USE

FOR ESTABLISHED LAWNS: Apply this product in the Fall (September-October) to produce strong vigorous turf which will over-winter in a healthy condition. Make this product a part of your total lawn fertilizing program.

FOR NEW SEEDING OR SODDING: Use suggested spreader setting for established lawns but go over the area to be seeded twice (once in each direction). Work thoroughly into soil before seeding or sodding.

Basis 1# P_2O_5 per 1,000 sq. ft. - one application

1000 sq. ft.	1 bag covers	ton covers	acre rate
4 lbs.	12,500 sq. ft.	11.5 acres	174 lbs.

F699

NOTE: Supplemental applications of lawn fertilizer are needed to achieve a minimum 1 lb. Nitrogen per 1,000 sq. ft.

SUGGESTED SPREADER SETTINGS

Spreader	1#P_2O_5/1,000 sq. ft.	½#P_2O_5/1,000 sq. ft.	Spreader	1#P_2O_5/1,000 sq. ft.	½#P_2O_5/1,000 sq. ft.
Earthway Rotary	18	15	Lesco (letter/Numeric)	K/22	I/17
Gandy	30	26	Spyker	5¼	4½
Lely	6½ II	5 II	Vicon (all models)	30	24

These settings were calibrated and field tested. However, age and condition of spreader, speed of operation and evenness of terrain may require slightly different settings for desired coverage.

WARNING

Hazard Statements:
May cause skin and eye irritation.
May be harmful if inhaled.

Precautionary Statements for handling:
Wash hands and exposed skin thoroughly after handling.
Wear protective gloves and protective clothing.
If eye or skin exposure occurs, rinse with water. Seek medical attention if irritation persists.
Take off contaminated clothing and wash before reuse.
Dispose of in accordance with all federal, state and local regulations.

Use in accordance with recommendations of a qualified individual or institution such as, but not limited to a certified crop advisor, agronomist, university crop extension publication.
DO NOT apply near water, storm drains or drainage ditches.
DO NOT apply if heavy rain is expected.
DO NOT apply to frozen ground.
Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn.

Information regarding the contents and levels of metals in this product is available on the Internet at: http://www.regulatory-info-lebsea.com

Apply only to actively growing turf. Do not exceed 3.2 lbs. of total nitrogen per 1,000 sq. ft. annually.

In New Jersey, New York, Pennsylvania and Virginia: This fertilizer contains phosphorus and may not be used for lawn maintenance on turf except when
1) Providing nutrients to specific soils and target vegetation as determined to be necessary in accordance with a soil test that was conducted by a laboratory* performed no more than 3 years before the application
2) Establishing vegetation for the first time, such as after land disturbance, provided the application is conducted in accordance with the recommended application rates established by the State.
3) Re-establishing or repairing a turf area.

In Maryland:
1) Established vegetation for the first time, such as land disturbance, provided the application is conducted in accordance with the recommended application rates established by the State.
2) Re-establishing or repairing a turf area.
3) The annual limit for phosphorous for starter lawn fertilizers is 2 lbs. per 1,000 sq. ft.
4) In Maryland, this product is to be used as a starter fertilizer on newly established lawns only.

In New Hampshire: This fertilizer contains phosphate. In New Hampshire, phosphate fertilizers may only be used for turf maintenance in golf courses, parks, athletic fields, and sod farms.

In Pennsylvania, Maryland and New Hampshire: Do not exceed 0.9 lbs of total nitrogen per 1,000 sq. ft. per application.
