

Emerald Isle Solutions™

Triumvirate™

Turf and Landscape

Premium Wetting Agent That Improves Water Penetration, Distribution, and Retention in Soil

CONTAINS NON-PLANT FOOD INGREDIENTS

Guaranteed Analysis – Soil Amending Ingredients

Active Ingredients:

79.0% Ethylene oxide-propylene oxide polymer

15.0% Propylene glycol

5.0% Ethylene glycol

1.0% Trisiloxane

Directions for Use

For use on established turf grass areas including golf courses, athletic fields and lawns. Use at any time of the year to improve water movement into and through the soil profile. For best results, apply Emerald Isle Solutions™ Triumvirate as part of an overall moisture management program. Product performance and water penetration is enhanced when watered-in following application and/or following soil aeration.

General Information

Emerald Isle Solutions™ Triumvirate contains advanced new technology is designed for quality turf areas. It's triple-action formulation provides great moisture management and significantly reduces irrigation requirements. Emerald Isle Solutions™ Triumvirate contains a three-way surfactant and polymer blend providing great water penetration, even water dispersion throughout the root zone and improved water holding capacity of sandy root zones. Emerald Isle Solutions™ Triumvirate is very effective in both preventing and curing the conditions that cause localized dry spot and improves water use efficiency. Emerald Isle Solutions™ Triumvirate can be applied using a standard boom, handheld sprayer or injected through an irrigation system.

**For professional use only.
Use as directed.**

Net Contents: 2.5 Gal (9.46 L)
Density: 8.84 lb/gal (1.060 kg/L)
at 68° Fahrenheit.

DIRECTIONS FOR USE

Before using this product read the entire label and precautionary statements.

- Determine the rate of application and the water volume required for the treatment area based on the table below.
- Add ½ of the required water volume to the sprayer tank.
- Add Emerald Isle™ Triumvirate to the water and agitate.
- Add the remaining water and continue agitation until thoroughly mixed.
- Spray to provide complete, even coverage.
- Water in after application.

Emerald Isle Solutions™ Triumvirate Frequency and Volume:

Application Frequency	Triumvirate	Water Volume*
Initial Application	8 fl. oz.	2.5 Gallons/1,000 sq. ft.
	2.5 Gallons	100 Gallons/Acre
Subsequent Applications Applied Monthly	3 fl. oz.	2.5 Gallons/1,000 sq. ft.
	1 Gallon	100 Gallons/Acre
If Dry-Spot is Present or in Severe Conditions	8 fl. oz.	2.5 Gallons/1,000 sq. ft.
	2.5 Gallons	100 Gallons/Acre

*Under dry conditions, increasing the water volume aids movement into the soil.

Warning

Combustible Liquid

Keep away from flames and hot surfaces. - No smoking.

Wear protective gloves/eye protection/face protection.

In case of fire: Use CO₂, dry chemical, or foam to extinguish.

Store in a well-ventilated place. Keep cool.

Dispose of contents/container to an approved waste disposal plant.

May be harmful in contact with skin. Causes mild skin irritation.

Harmful to aquatic life with long lasting effects.

Product Storage

Keep container tightly closed. Store in a dry, well ventilated place. Protect from freezing.

Health and Safety:

Keep out of reach of children. If in eyes, rinse continuously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Safety data sheet available on request.

First Aid:

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. If ingested, call a doctor or poison control center immediately. Have a person sip a glass of water if able to swallow. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Treat symptomatically.
