roots® Fe6% Plus

iron chelate and kelp extract

Roots® Fe 6% Plus is a Professional Use product containing nitrogen, potassium, sulfur, two forms of iron, and kelp extract.

Application Guidelines

Shake or agitate before use. Rates will vary, based on soil/tissue analysis and your agronomic needs. Apply in the early morning or late afternoon for best results. Use a spray adjuvant for superior coverage. Allow foliar product to dry on plant prior to irrigation. Apply 59 - 88 ml per 93 sq. meters (2 - 3 oz. per 1,000 sq. ft) every 21 - 28 days or as needed to maintain healthy turf.

Mixing Guidelines: Use a minimum of 3.8 liters of water carrier per 93 sq. meters (1 U.S. gallon per 1,000 sq. ft.). Fill mix tank with half of required spray water and turn on agitation. Measure product into tank, add remaining water and other soluble materials. Add a defoaming agent if desired, and adjust pH of tank-mix to neutral if necessary.

Compatibility: Roots® liquids are concentrated materials. They are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. They should be mixed in spray tanks with water and proper agitation. Conduct a jar test as needed to ensure compatibility with other products before tank mixing.

Storage and Use Guidelines

Store in original containers at temperatures between 10°C and 32°C (50°F and 90°F). Mix with other materials only at time of application and in exact amounts required. To avoid contamination, do not return previously mixed product to its original container. Use all product within 12 months of original purchase date.

HAZARD STATEMENTS

May cause skin irritation with prolonged contact.
IF ON SKIN: Wash with plenty of soap and water.
If skin irritation occurs and persists, seek medical advice.
Take off contaminated clothing and wash before use to avoid irritation.

WARNING

PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If irritation persists, seek medical attention.
IF ON SKIN: wash with plenty of soap and water.
If skin irritation occurs and persists, seek medical advice.
Take off contaminated clothing and wash before reuse to avoid irritation.

Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other intended plants during the course of the year.

WARRANTY

NOTE To the extent consistent with applicable law, Buyer assumes all responsibility for safety and performance if this product is not used according to the directions.

AGITATE BEFORE USE

Storage Instructions

1. Store between 50°F (10°C) and 90°F (32°C).
2. Avoid prolonged exposure to direct sunlight.
3. Keep lid tightly closed when not in use.
