### DIRECTIONS FOR USE:

Apply only as directed.

AGRIplex<sup>®</sup> is formulated for soil or foliar application and is designed to supplement all fertilizer programs. It is an excellent tank mix buffer. AGRIplex<sup>®</sup> can be applied through injection and drip irrigation, fertigation, or sprayer system. Low moisture conditions may limit nutrient uptake, so a minimum dilution of 1:30 in water is recommended. Maximum dilution should not exceed 1:600.

**Compatibility:** AGRIplex<sup>®</sup> is tank mix compatible with most soluble fertilizers, herbicides, fungicides and absorbent gels. As with all chemicals, read all labels for compatibility verification and, if practical, test on a small area prior to extensive use with other chemicals. If in doubt, call 800-233-1067 with questions.

### Turf Maintenance

Greens & Tees

1 fl. oz./1,000 sq. ft. every 2 weeks - or - 2 fl. oz./1,000 sq. ft. every 4 weeks

Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other intended plants.
